SIO-FLAME™
 MOLTEN METAL

Trousers with protection against molten metals

The Gulia trousers are ideally suited for protection against the risks of working with molten metals. With five pockets this is a very practical pair of trousers. Made from a light and supple but inherently flame-retardant fabric, these trousers offer excellent protection against molten aluminium (D3) and steel (E3). The Gulia has reinforced and sloping seams which significantly increases the lifespan and wear resistance and reduces the risk of molten metal standing on the seams. The trousers are made of a light and supple fabric that is inherently flame retardant. Thanks to the breathable, non-allergenic fabric, these trousers are extremely comfortable.

Trousers with protection against molten metals

Gulia - 040VA2PIU

European Standards:

- » EN ISO 11612 : 2015 / A1 A2 B1 C1 D3 E3 F1
